

Food Tray Trolley

Service Assist has created a simple option for distributing meal trays where a large number of trays are required. With the added feature of electric Drive Assist and utilising a straight forward control panel, the tray trolley offers excellent maneuverability. The runners allow for two trays to be placed side by side for a total capacity of 32 trays.

Features:

- Up to 32 tray capacity
- Optional MotorDrive System
- Stainless steel construction
- Optional top rail

The side by side configuration allows for transportation of up to 32 trays.
