

Bed Transport Trolley

Ideal for those facilities with narrow doorways, or transport of hospital beds between facilities, the bed transport trolley can safely hold and move most types of beds/trolleys, both manual and electric, on their side.

The adjustable clamps and felt covered frame hold and protect the bed, while the four high quality castors allow for easy and smooth travel over most flat surfaces.

Features:

- Height Adjustable Clamps
- Brake / Directional Lock Castor Configuration
- Felt Covered Frames
- Collapsible Uprights

Below: The trolleys uprights are removable for easy storage.

Left: Height adjustable clamps will suit almost all bed type's

Bed Transport Trolley
