

## Rising Base Distribution Trolley

In today's world of occupational health and safety Service Assist continues to find solutions for material handling and ergonomics. The mesh distribution trolley with rising base helps prevent the need to bend and lift.

### Features:

- Six wheel design
- Option of 70kg or 100kg rising base
- Pneumatic tyres suitable for internal and external use
- Combination of 4 fixed and 2 swivel castors for positive steering and mobility
- Option of fixed castors front or rear to suit your application
- Opening side to aid loading and unloading
- Custom sizes

**Below:** The mesh distribution trolley features a rising spring base to ease lifting.
