

Little Jumbo Safety Step

Engineered in Germany, the Little Jumbo ladders are built to the industry's most exacting specifications. Available in Two-Step, Three-Step, and Four-Step designs, all models incorporate wide, slip-resistant, steps for maximum stability and safety. They also feature the unique fold-up safety bars for added security and optional Tip 'n Pull Wheels for super easy moving.

All models are made from rugged, corrosion-resistant aluminum alloy - built to last yet lightweight and easy to handle. Little Jumbo ladders fold to a slim 5" depth. The steps pivot vertically while the framework tucks together for convenient storage.

Features:

- Constant stair inclination
- Constructed from Aluminium Alloy
- Fold down accessory support
- Maximum stability
- Skid-proof rubber feet
- High load-carrying capacity
- Small transportation measure
- Lightweight
- Large steps

The Little Jumbo folds to a compact 5" depth.

Little Jumbo Safety Step
