

## PVC Tub Trolleys

### 300L TUB TROLLEY + RISING BASE

The 300L Tub Trolley features a solid four wheel configuration and optional rising base. The rising base is achieved using drop-down 'octopus' arms. The base rises as objects are removed from the trolley.

### 450L TUB TROLLEY

The 450L bin trolley is a tough polyethylene bin on a 304 grade stainless steel dolly designed to transport large loads of waste or linen. Contents can be fully concealed with options including gas strut assisted lid and lockable, side opening doors.

The six wheel configuration makes this trolley easy to wheel and manoeuvre, even with a full load. The 450L can also be motorised

### RISING BASE TUB TROLLEY

The 320L Tub Trolley features a solid six wheel configuration and rising base. The rising base is achieved using either a spring underneath the rising platform, or drop-down 'octopus' arms. The base rises as objects are removed from the trolley.

### Tub Trolleys
