

IT Trolley

After careful research and close consultation with IT Professionals and Clinicians within the Health Care and Aged Care Industry, the Laptop based IT Trolley has evolved. The practical applications of knowledge and research have resulted in a complex set of divergent needs being met with a single piece of equipment.

The Information Technology Trolley provides safe, efficient and portable workstations for all users that can be taken to the patient.

*Adjustable height trolley pictured. Fixed height option also available.

Features:

- Laptop security
- Press button, battery adjustable height
- Full size QWERTY keyboard and mouse
- Compact storage size
- Folder storage

Below: Can be used in both standing and sitting positions.
